**Subject:** Complete vehicle certificate

Todd,

Per our conversation this morning, February 11, 2010, you acknowledged that for consistency purposes, any calibration modifications that Ford makes for the 6.4 liter complete heavy-duty diesel truck test groups as a result of discussions with the California Air Resources Board (CARB) to receive a 2011 model year Executive Order would be applied to the federally certified vehicles as well. Could you please confirm this with a short reply?

Thanks,  
Linc
